She looks forward to getting to know Frazer kids and families, as well as native traditions. She hopes to be able to help kids and families build support and skills to achieve their goals and to still be working here in frazer in 5 years. Gregory Thomas Rodriguez

Gregory was born in Fresno/Clovis, CA and he studied at the University of California, Davis (UC Davis). He enjoys watercolors, art, fishing, hunting, and video games. His favorite quote is “Shoot for the moon and if you miss you'll land among the stars!”. He looks forward to making a difference in the lives of the students, as well as seeing the lightbulb “turn on” in the minds of students he works with. He wants to see his students get a

passion for learning and to be in a classroom 5 years from now. He decided to be a teacher because it was just a natural thing for him and he had always found himself tutoring friends and co-workers and when he is in the classroom he comes alive. “There is no better place I feel at home than in a classroom”. Some of the sports he played in highschool was football, volleyball, and also was able to get a letter in theater/drama, he now plays pick-up games of basketball, volleyball, and football.
